

FREE ASSOCIATES

5 Etudes for Vibraphone

The vibraphone etudes in *Free Associates* are meant to foster and expand creativity and free improvisation on the instrument. Presented as a series of graphic illustrations, each work is to be interpreted with great freedom.

The works are written for a standard 3-octave vibraphone. The numbers 1 through 37 on each etude correspond to chromatic pitches. 1 represents the lowest pitch while 37 is the highest. The performer is free to choose whatever implement they deem appropriate to interpret the imagery.
